### GOVERNING THROUGH A PANDEMIC

Just over a year ago, King County experienced its first death from COVID 19 and since that fateful day, we all have faced unprecedented challenges and disruptions to our daily lives.

Guided by our public health experts, the County moved swiftly to protect residents from the virus and support those who were suddenly without a steady income. We expanded our traditional responsibilities by extending our work into areas such as rental and food assistance, support for small businesses and local chambers, and programs to bring technology to those without it.

I am excited to share the work the County Council has taken to date to address the pandemic and its impact on our community.

*Dave believes that for King County to fulfill its potential for being a great place to live and work, all members of our community must benefit. Working hand-in-hand with local community leaders and his constituents, he has championed numerous initiatives including the Best Start for Kids (BSK) levy, the Veterans, Seniors and Human Services levy, Health through Housing and King County's first Strategic Climate Action Plan (SCAP). Dave grew up in South King County and was elected to the King County Council in 2013.*
