

Rotary Club of Renton Salutes Renton School District Students of the Month – Seniors School Year 2020-2021

Albert Talley Sr. High School – Anthony Vera

Thank you for the honor of being chosen for Student of the Month.

This year I am taking Financial Algebra, Bridge to College LA, Ceramics, and Strength & Conditioning.

When I graduate, I want to study Computer Science.

My goal is to become a Computer Programmer.

Hazen High School - Mikaela Rosario

I am so grateful and honored to be the Renton Rotary Student of the Month for April 2021. I have been a running start student at Bellevue College for my junior and senior years of high school. I will also be graduating with a high school diploma and an AA degree in Art and Science.

I am currently participating in Native American Student Alliance (NASA) at Hazen as well as First Nations at Bellevue College. NASA is a club very dear to me as I help found this club my junior year and it is the first club celebrating Native American

culture at Hazen. I am a volunteer at Northwest Harvest where I package food for homeless shelters and at Medical Teams International where we provide dental care for those who cannot afford it. On top of these involvements, I am a varsity team captain on Hazen's track and field team. In college I am considering finance or marketing. Whatever path I chose to take

in life I know I want to continue to advocate for Native American representation and continue to help homeless and less fortunate communities."

Lindbergh High School - Alexis Prepotente

Thank you for the honor. Right now, I am taking AP Literature, AP Statistics, AP Psychology, Civics, Photography, and Anatomy. I am the secretary in HOSA, and I've been involved with Key Club, varsity basketball, and tennis.

Beyond school and school related activities, I am a volunteer at Birthday Dreams, which is an organization that provides birthday parties for homeless children across the Puget Sound area. I bake birthday cakes for these parties and even volunteer at the on-site parties! During the summer, I also volunteer at the Renton Farmers Market and before the pandemic, I have volunteered at Benson Hill and Renton Park Elementary.

When I graduate, I plan to study medicine. My goal is to become a doctor and work with children who have disabilities. As someone who has a disability, I strive to create a more welcoming environment for children with disabilities in the healthcare field and to hopefully guide them into appreciating themselves.

Renton High School – Meymum Mohamud

Thank you for choosing me as Student of the Month.

I was born and raised in Somalia. We fled Somalia in 2007 to Ethiopia and finally to America. My education and family are very important to me and a huge part of my life. Most of my spare time is used spending quality time with my family and studying. I am proud to say I have 3 brothers and 7 sisters!

My hobbies are reading, solving math problems, drawing, and studying. I love to help people and I hope to become a dentist after I graduate. I want to be a dentist because I dream of helping people love their smiles. One day I hope to go back to my country and help them too, it is my passion, and it brings me joy.
