## Meet RI President Shekhar Metha

Monday, August 30, 2021

*From Rotary magazine, July issue*

### Dream Weaver By John Rezek

Over the years, I caught glimpses of Shekhar Metha when he came to One Rotary Center in Evanston, Illinois, for Board of Directors meetings. I met him formally during one of the days of back-to-back meetings with various staff members that every incoming Rotary present participates in. During the session I attended, he was the most relaxed person in the room, despite being the only one suffering from jet lag. He was alert, patient, and asked perceptive questions ♦ not surprising for someone as successful as he is in his professional and philanthropic life. I kept thinking that he was assessing each of us to see how we could be recruited to

help him achieve his dreams for Rotary

## Our meeting this week: Mayor Anne McEnery-Ogle

Monday, August 30, 2021

We're stepping back from our usual practice of having no meeting on the Friday before a holiday weekend to bring a special guest this Friday: Vancouver Mayor ♦ and fellow Rotarian ♦ Anne McEnery-Ogle.

Here is her biography from the Vancouver City website:

Anne McEnery-Ogle was originally elected to Vancouver City Council in November 2013 and took her first oath of office on January 1, 2014. She became the first woman to serve as Mayor of Vancouver on January 1, 2018, where she has helped to lead efforts in economic development, regional community relations, and transportation. Anne attended Southern Oregon State College in Ashland, where she earned a bachelor♦s degree in education in 1974. Two years later, she received her master♦s degree in education from Lewis and Clark College in Portland. Mayor Anne taught for 30 years for Lake Oswego Public Schools, where she also served as chair of the mathematics department. During her career, she served as editor and author for Oregon♦s State Math Journal, was a lecturer and instructor at colleges and universities, consulted for school districts in Washington and Oregon, and co-authored a book about reforming middle school mathematics.

Anne made improving the city she and her family call home a priority. She served for five years on
