From the Prez

Our 2020-2021 vision is to foster fellowship and connections, to be a team of involved and engaged members in local and world community service projects, to build continuity for multiple fiscal years in regard to the signature project and world projects, and to be innovative and creative while we adjust to turbulent times.

I hope everyone is doing well and I can't wait until I can see your bright, shining faces in person. I have been acutely reminded during COVID-19 that humans are social by nature. We need and crave connection. While I miss the connections that can only happen in person, I am continually amazed at creativity and ingenuity to foster digital and distant connections. It's not the same but it's something! A friend recently shared this quote by Yosef Kanefsky and I love it, "Every hand that we don't shake must become a phone call that we place. Every embrace that we avoid must become a verbal expression of warmth and concern. Every inch and every foot that we physically place between ourselves and another, must become a thought as to how we might be of help to that other, should the need arise." Our attendance has been down for the last two meetings, which is typical this time of year; however, I would like to encourage everyone to find ways to stay connected to each other and our club. When the restrictions allow us to meet in-person again, I will be the first one in the reception line to greet everyone! See you via Zoom on Thursday!

A Glimpse at Last Week!

Thank you to Cathryn Stevens for her update on the happenings around the Eugene Airport! While there aren't many people flying in and out - all kinds of things are happening to make our experience at the airport even better. Major cleanings, repairs and updates are being handled - all in a much safer more economical manner than if the Airport was filled with travelers. One of the big items is the development of a meeting room upstairs outside of the secure area that can be used for meetings - for training and for Rotary Clubs..... Thank you Cathryn for sharing what's happening in your neck of the woods!

Adacar-Usuk Water & Sanitation Project

By Larry Rhodes on Wednesday, August 5, 2020

The "Adacar-Usuk Water & Sanitation Project continues after being stalled by the Covid-19 virus for several months. The global grant project is providing drinking water to nine communities in north-eastern Uganda. Today they report the successful drilling of the deep well at Ogoria village. P.P. Sam Okello (pictured to the right) is the Soroti Club's project manager." The light blue pipe is where the hand pump will be installed.
