requirements, the traditional Buyer Dinner will not happen. Norm Small of Yummy's has indicated that he can do a meal consisting of a tri-tip sandwich, chips and a cookie. Due to limited seating, the sandwiches should be taken to the buyers auction seat or a small seating area. The liquer concession is also yet to be determined. The sale will start earlier at 11:00 AM due mainly to how slowly the sale may proceed. The confined sale area of animals and bidders under social distancing spreads the bidders throughout the grandstands and maybe into the concrete runway area. The sale will go on with all animals being shown live and via video link thru Stan Deupree's web page. **Due to the spreadout nature, many more Spotters and Catchers (those actually getting signatures and processing instructions) will be needed.** All our traditional jobs at the auction will be altered and we ask that **everyone make themselves available on August 2nd** to make this auction a success for the 4-H youth that have worked hard and spent good money on their project animals.

## World Health Organization declares Nigeria Polio Free

By Nelson R. Maler on Monday, June 29, 2020

According to a June 19, 2020, news story in *The Guardian*, The World Health Organization (WHO) has declared Nigeria free of wild polio, following the completion of documentation for the free status.

Rotary International shared news last September about the documentation process and said Nigeria has been officially removed from the list of countries where polio is endemic. It's been 14 months since any cases of polio caused by the wild virus have been detected there, writes RI.

Today, Nigeria's complete documentation for Wild Polio virus free status was accepted by the Africa Regional Certification Commission for polio eradication (ARCC). It is a historic day for Nigeria, Africa and the Global Polio Programme, [To read more from Rotary, click here.](#)
