Opening schools: In Afghanistan, Rotary members opened a girls school to break the cycle of poverty and social imbalance.

Teaching adults to read: Rotary members in the United States partnered with ProLiteracy Detroit to recruit and train tutors after a study showed that more than half of the local adult population was functionally illiterate.

New teaching methods: The SOUNS program in South Africa, Puerto Rico and the United States teaches educators how to improve literacy by teaching children to recognize letters by sounds instead of names.

Making schools healthy: Rotarians are providing clean, fresh water to every public school in Lebanon so students can be healthier and get a better education.

Enhancing educational systems: In Kenya, Rotary clubs are working with the Global Partnership for Education and local and national governments to advance life-long learning opportunities for poor and marginalized children.

"When you teach somebody how to read, they have that for a lifetime. It ripples through the community, one by one."

Mark Wilson
Rotary Club member

Time for an updated Head Shot?
**Some examples above*
Looking to have Ben Vallejos come to the Ross Ragland Theater in September to setup in the lobby/hallway to take updated Headshots of Rotarians for \$75 each.

Cost includes: 1 black & white, 1 color, high res digital file with a copyright release emailed to you. All choices will be retouched

for blemishes and to soften lines.

**We would like to get a book of members published and wanted to offer this as an option before we published the new directory for members.*
