GUEST SPEAKER: Dr. Paula Dhanda, Founder & Med. Dir of Worldwide Healing Hands

Healthcare for women and children in underserved areas.

Her efforts have given her international recognition by the Red Cross and many others.

Many experiences in the underserved areas of Africa getting mothers to these outlying healthcare centers. Many times finding no one there or the resources to do what is needed.

Her priority, her mission is to eradicate cervical cancer, caused by a virus and treated with vaccinations. It is a simple matter to treat if caught in time. Yet, no diagnosis = no treatment.

Many areas need the expertise to diagnose and then have the machines to treat the disease. This is a very doable goal if we focus and make it a priority. WHO has a goal of eradicating cervical cancer by 2030!

Training is very important and then followup to make sure the training sticks.

Especially if machines are donated. Otherwise just a piece of furniture in these

healthcare centers.

The doctor would like Rotary to help in this mission much the same way they helped eradicate polio. Prez Laura would like to help once she is able to step away from the podium in July/22.

SPECIAL GUEST SPEAKER BONUS: Lacey Deas, is the new coordinator for Lake County Toys for Tots.

Beginning the task of gathering new and unwrapped toys for the kids in need for the holidays.

All monies and toys donated stay local.

Last year over 3000 kids benefited from the program.

Distribution will be a drive through the 3rd week of Dec.

If interested in participating contact Gary Deas.

Lacey's goal for October is to raise \$10,000.
