PROGRAM

Guest Speaker -Elizabeth Wong, Outreach Specialist California Telephone Access Program (CTAP)

CTAP is a program of the California Public Utilities Commission Deaf and Disabled Telecommunications Program. Every day over half a million California residents stay connected through specialized telephone equipment. There is a phone for every need including amplified phones that make it easier to hear conversations. There are big button phones that are easier to dial, phones with lights that flash for incoming calls, convenient portable phones and more. In addition, there are specially designed phones for individuals with more significant disabilities.

California phones are free, and are available to persons who live in California, have telephone service, and a doctor to approve the need. Products are available to assist with hearing, vision, mobility, speech, memory along with mobile accessories. The program is funded by a small surcharge that appears on all telephone bills in California. The surcharge appears as: "CA Relay Service and Communications Devices Fund."

To apply for a specialty phone is simple:

1. Live in California
2. Have telephone service

3. Difficulty hearing, seeing, moving, speaking or remembering

For more information or to download the application logon to californiaphones.org.

Elizabeth Wong has worked with the CTAP program for over 10 years. For more information, she can be reached at 510-220-4150 or ewong@ddtp.org. Training classes are offered on use of the basic features of specialty phone equipment.
