PROGRAM

Walt Schafer is a Noon Rotarian, involved in District Grants review. Walt has devoted himself to many community projects and is currently involved in the Honey Run Covered Bridge project. He lives in Centerville and the bridge has been a part of his environment for many years.

Walt is the Vice President of the Honey Run Covered Bridge Association. The bridge burned the evening of Nov 8, 2018. So many memories of weddings and family fun evaporated. However, people came together to raise funds to restore the bridge. Rebuilding of bridge is an effort of unification. The estimated financial need is about \$2M. Many in the community have assisted with materials and labor, including our own Howard Slater of Slater and Sons. The Caretaker♦s cottage is almost complete and the actual building of the bridge will begin hopefully in mid-July.
