BLT's for Lunch!

Sometimes I just want it to stop. Talk of Covid, protests, looting, brutality. I lose my way. Become convinced that this "new normal" is real life.

But, then I meet an 87 year old who talks of living through Polio, diphtheria, Vietnam, protests and yet is still enchanted with life. He seemed surprised when I said that 2020 must be especially challenging for him. "No", he said slowly looking me straight in the eyes, "I learned a long time ago to not see the world through the printed headlines, I see the world through the people that surround me. I see the world with the realization that we love big. Therefore, I just choose to write my own headlines. "Husband loves wife today. "

"Family drops everything to come to Grandmas bedside." He patted my hand "Old man, makes new friend".

His words collide with my worries, freeing them from the tether I had been holding tight. They float away. I am left with a renewed spirit. My headline now reads "woman overwhelmed by the spirit of kindness and the reminder that our Capacity to love is never ending "

08/17/21 - Excellent views as we drove past gatekeeper **Justin Redman**, as he demanded the password at the gate. We were on the deck and the weather couldn't have been nicer. We sat and chatted until we were called up for the buffet of Crispy bacon BLT's, Genova rolls, potato salad and freshly cut fruit salad. Lemonade, or Ice tea was there to drink. I made an Arnold Palmer for myself.

Bearded man need password!

President Evan rang the bell at 12:34pm. Lunch was that good! Curiously, none of our female members were in attendance. We missed them.

Richard Carr was called up to lead the pledge, 4-way test and give the thought for the day. You can choose your own headline. Be kind and positive. Happiness is up to you.

Sunshine Bucks:

Richard Carr went first. He had four to share, so he filled the bucket\$! 1. He, being a retired electrician, had electrical problems with his pacemaker! Had to go in for a whole workup/tune up. Not sure if the warrantee covered it, and he can't wear a hat outside because he's now solar powered. Glad you're OK Richard!

Richard introduces Ryan Billigmeir

2. His 12 year old grand daughter is in theater and has been in productions of “Into the Woods”, Miracle on 34th Street”, and “The Wizard of Oz”. Miracle is her first paid performance and she informed her grandfather she would really like to have a manager!

3. Richard loved the photo of the Beaming new Dugoni grandparents.

4. He introduced his guest **Ryan Billigmeir**. Ryan is interested in joining the club!!

Jim and Lisa with little Willow, look at those smiles!

Archive photo of when Mark Ornellas spoke to us in 2002.

Then it was **Jim Dugoni's** turn to announce the birth of Willow Danielle Dugoni. 6lbs and 19" long, on August 11, 2021. Mom, Da and big sister Esther are doing well.

Evan then updated our calendar.

8/24/21 will be Mike Millerick on the development of StocktonCom and the upcoming event at Stockton Arena on September 11 and 12.

8/31/21 will be **Mark Ornellas** speaking on Constitutional Law.

Bill McDonald of our Rotary Endowment reported the stock market is down 3%. Yikes!

President Evan announced that the Club Secretary position is still open. Apply within.

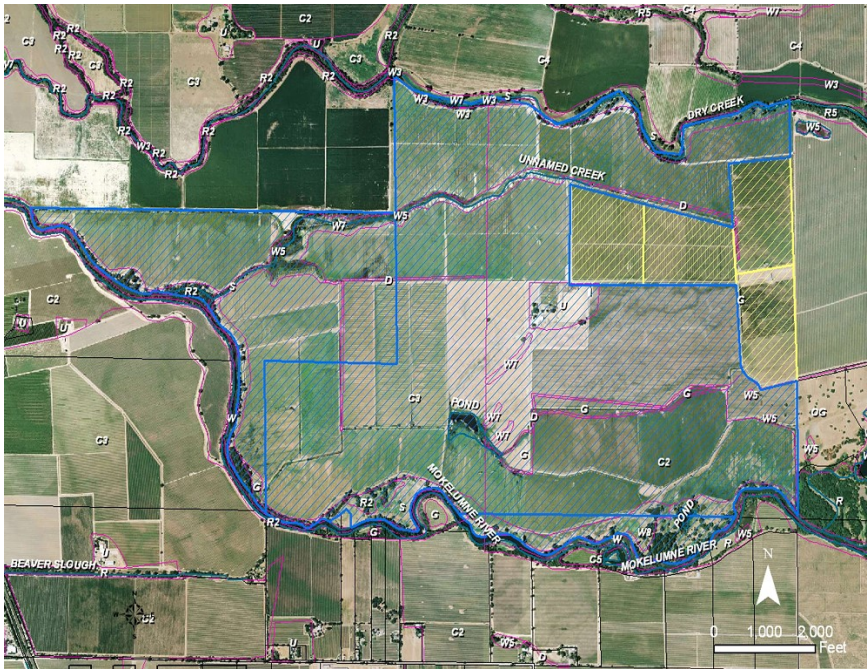

The NSR Secretary position is still open.

Steven Mayo

Program Manager Habitat Conservation Plan at San Joaquin Council of Governments

Habitat

Steve Mayo spoke to us and explained the balancing act to have development, but not sacrifice our habitat.

The key purpose of the San Joaquin County Multi-Species Habitat Conservation and Open Space Plan (SJMSCP or Plan) is to:

- o Provide a strategy for balancing the need to conserve Open Space and the need to Convert Open Space to non-Open Space uses while protecting the region's agricultural economy.
- o Preserve landowner property rights.
- o Provide for the long-term management of plant, fish and wildlife species, especially those that are currently listed, or may be listed in the future, under the Federal Endangered Species Act (ESA) or the California Endangered Species Act (CESA).
- o Provide and maintain multiple-use Open Space which contribute to the quality of life of the residents of San Joaquin County.

Accommodate a [growing population](#) while minimizing costs to project proponents and society at large.

This video will explain: <https://youtu.be/Vyd6wmlYw7c>

Plan Activities

The SJMSCP, in accordance with ESA Section 10(a)(1)(B) and CESA Section 2081(b) Incidental Take Permits, provides compensation for the Conservation of Open Space to non-Open Space uses which affect the plant, fish and wildlife species covered by the Plan.

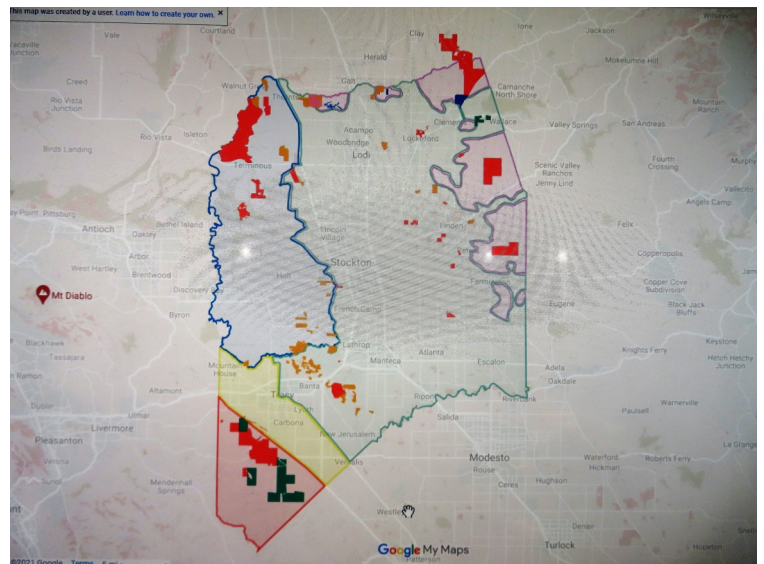

The SJMSCP compensates for conversions of open space for the following activities:

- o Expansion of existing urban boundaries
- o Levee maintenance undertaken by the San Joaquin Area Flood Control Agency
- o Maintenance activities
- o Maintenance of existing facilities for nonfederal irrigation district projects
- o Managing preserves
- o Mining
- o New parks and trails
- o Nonagricultural activities occurring outside of urban boundaries
- o Nonfederal flood control projects
- o School expansions
- o Similar public agency projects
- o Transportation projects
- o Urban development
- o Utility installation

The agency preserves property in perpetuity. Once purchased aerial photos from the past are used to duplicate portions of the property to its original state. Also allowing the profitable portion to produce income. It's a win, win!

Steve was instrumental in establishing SJ Counties Habitat Conservation Plan. Quite unique and it has to be for our unique area.

The plan covers all requirements and is a guide to a successful development with no surprises, saving time and money. It lays out what will be required from every aspect. If you complete these you will be compliant with every agency. You don't have to use the Plan, but why wouldn't you?

Thanks Steve, thanks for looking out for us!

President Evan rang the bell at 1:15pm.
