Mike Clancy

Climate Change; Causes, Impacts and Solutions

Mike Clancy earned a B.S. in Oceanography from Florida Institute of Technology in 1973 and a M.S. in Meteorology from the University of Miami in 1975. He worked for Science Applications International Corporation in the late '70s and the Naval Research Lab in the early '80s. He joined the U.S. Navy's Fleet Numerical Meteorology and Oceanography Center (FNMOC) in Monterey in 1983 and was selected as Technical and Scientific Director of FNMOC in August of

2005. Mr. Clancy authored over 100 publications in meteorology, oceanography and information technology, and received over 50 professional awards, including the Navy's highest civilian award, prior to his retirement from Federal Service in 2011. He was inducted into the FNMOC Hall of Fame in 2015. Mr. Clancy is a member of the Monterey Chapter of the Citizens' Climate Lobby (CCL) and a frequent public speaker on Climate Change.

Mark Peake

Mark was born in 1970 in Burlington, NC. Most of Mark's extended family still live south of the Mason-Dixon Line. Except for his big brother, Jimbo, (See, we really are from the south.)

Mark's mom was widowed in 1972 but struck gold when she met and married Mark's dad, Murray, in 1974. Murray moved the family to Reading, PA in 1975.

Mark attended The Lancaster Country Day School and then Elizabethtown College earning a BA in History with a double minor in philosophy and art. Since such a degree was only good for third shift at the 7/11

or grad school, Mark headed to Boston's north shore for seminary at Gordon-Conwell where he met his bride, Kimberley during a Hebrew class. They celebrate 24 years this October. Apparently Semitic languages are the literal languages of love!

They added Theodore (Theo) to the team in 2007 and Jonah (Dr. Jones) in 2011. Mark has been pastor at 1st Presbyterian Church since 2010.
