Kick Polio Out of Africa Campaign

Wednesday, July 21, 2021

As recently as the 1990s, an estimated 75,000 children in Africa were paralyzed by polio each year. Last year, Nigeria ♦ the last country on the continent to have reported a case of wild polio ♦ was declared clear of the disease, making Africa as a whole polio free. The breakthrough was a result of the Kick Polio Out of Africa campaign launched in 1996 by Rotary International in collaboration with groups including UNICEF, the World Health Organization, the U.S. Centers for Disease Control and Prevention, and others. Polio, which in 1988 was endemic in 125 countries around the world, has now been eliminated in all but just two of them: Afghanistan, where there were 56 cases of wild polio in 2020; and Pakistan, where there were 84.

Richard Adams read George H. W. Bush's Inaugural Prayer. President Bush wrote the prayer and read it at his inauguration January 20, 1989.

*Heavenly father, we bow our heads and thank you for your love.
Make us strong to do your work, willing to heed and hear your will and write on our heart these words: use power to help people.
For we are given power not to advance our own purposes, nor to make a great show in the world, nor a name.
There is, but one just use of power and it is to serve people.
Help us remember, Lord, Amen.*
