The Four-Way Test

of the things we think, say or do.

- First* - Is it the TRUTH?
Second - Is it FAIR to all concerned?
Third - Will it build GOOD WILL
and BETTER FRIENDSHIPS?
Fourth - Will it be BENEFICIAL to all concerned?

What do we do? Improve people's lives! Where do we do it? Locally and globally! How do we do it? Through service!

PROGRAM - Brandi Carter - MDA

Muscular dystrophy (MD) is a group of genetic muscle diseases causing progressive weakening and break-down of skeletal muscles. There are 9 main categories of the disease, the most common of which, Duchenne MD, affects about 1 in 5,000 males at birth. Its low prevalence classifies MD as a rare disease, but the severity of disability or even significant shortening of life expectancy that it can cause still make it an urgent problem to address.

The Muscular Dystrophy Association (MDA) was founded in 1950 to generate public awareness of the condition, provide support to affected families and

individuals, and to raise research funding. Its annual Jerry Lewis MDA Telethon (1966-2010) has probably done more to raise awareness of MD than any other event or initiative. The MDA supports families with services like support groups, follow-up care, and loan closets and repair assistance for the often expensive medical equipment. It also hosts an annual 1-week summer camp for children affected by MD, where children are paired one-to-one with volunteer counselors to empower them to participate in activities like swimming, archery, crafts, zip line rides, etc. The event is community supported and fully covers each child's \$2,000 cost of attendance. The MDA is always looking for more volunteer counselors, especially males, or one-day counselors to assist during registration and departure. The MDA's efforts in funding and conducting research are also starting to pay off with several drugs having been approved in the last two years to slow or halt the progression of Duchenne MD and even reverse Spinal Muscular Atrophy. To be able to assist in the immense cost of research, drug development, and treatment, the MDA is constantly raising funds via efforts like its Fill the Boot campaign, which raised \$120,000 in 3 days in LA county alone. Our support for these efforts is greatly appreciated.
