## The San Marino Rotary Rotoscope by Russ Osmonson, et all. for September 10, 2020

### The San Marino Rotary Rotoscope by Russ Osmonson, et all. for September 10, 2020

**AARON GIL** is a smooth operator. Sade would be proud of you. Aaron. Each week, Aaron seamlessly runs our meetings with grace. He is able to juggle incoming announcements and remind of necessary conferences and dates, all while making each of us feel special. He reminded us that this is basic education and literacy month; each month rotary as a theme. Aaron is impressive!

**GILDA MOSHIR** has started a new trend that is sure to catch on at our club meetings. This last week Jessie Hong was given a platform and time to share news about his business (Ramona Health Group). Jessie is on the cutting edge when it comes to opportunities in the pharmaceutical world. Jessie mentioned that he is working with Apple to create an application that helps to translate medical drug information from one language to another. Jessie has his finger on the pulse of what is needed for customers. We may see Jessie with a pharmacy in San Marino one day.

**JOHN JONES IS HAPPY** to share when our members achieve great feats. At the Sept 10th meeting we will be presenting Denise Wadsworth, Fang Fang Ho, and Wayne Carter with their recognition crystal and pins for achieving major donor status. This means they have donated \$10,000+ to The Rotary Foundation.

**LINDA WAH** keeps on trucking! She keeps bringing us great speakers. This past week Linda introduced Evans Lam Lam, who gave a fascinating speech about China, Hong Kong, Hainan Dao Island and finances. Evan's speech garnered a lot of attention from our members, as many of us had questions. Evans was frank in his comments about how he expects Hong Kong to act in the future. He compared China and Hong Kong to a Parent/Child relationship and added that if Hong Kong does not acquiesce to China's wants in the next seven to ten years, that he expects more problems for Hong Kong. Evans said that the best that Hong Kong can hope for is to be like Shanghai. Evans sees Hainan Island as a competitor as a tax haven. Evans went on to add that China is creating a national digital currency (not like Bitcoin); China wants to control the currency with a strong Central Government. China has been watching and learning from WeChat pay and Ali pay.

**JP MAINGUY** is another of our San Marino Rotarians, who has worked tirelessly to find us programs. He was responsible for our last two program speakers. JP, Linda, Bill Payne and several others have put in the necessary time to make a difference in our community and at our meetings. If programs are the lifeblood of our club then they should all be commended for their efforts.

**KEEP INVITING PEOPLE** to our Zoom meetings. Simply send this link and code to friends you would like to have attend:

**NEXT WEEK we hear from Michael Scott Campbell**, who works closely with Infectious Disease Specialist and Internal Medicine Physicians on a daily basis, to make certain patients are receiving the best possible care. As the director of Pharmacy at Pomona Valley Hospital Medical Center, he is responsible for all drug procurement at the medical center including being the only one able to obtain the new drug used to treat severe cases of Covid-19, Remdesivir.

Campbell is originally from West Virginia, and has his Bachelor's Degree in Biology (with a minor in Chemistry) from the University of Charleston. She received his Pharmacy Doctorate from Loma Linda University, and later, his MBA from Loma Linda in Healthcare Administration.

He is an associate professor at Loma Linda University, Western University and Keck Graduate Institute, newly

Treasurer

elected president of the Inland Society of Health System Pharmacists, and the incoming treasurer for the South Pasadena Team Referral Network.
