COROTATOR

Notes from the Scribe

Well, it's a new year and a new hope that we can meet again soon! In the meantime, we had an extra-long pre-game meeting to renew old friendships after two weeks for Christmas "vacation." With six months left our Pandemic **President Robin** opened the meeting by asking **Sanjay Bhandari** to offer the invocation and Pledge. **Kelly Helfand** asked our visiting Rotarians and guests to identify themselves and off we went to 2021.

In case you missed our Zoom meeting this week you can catch it here on YouTube:

Rotary Notes of Interest & Announcements

1. Who Am I? **Jeff Tyler** introduced **Ed Dougherty** who is another lawyer from Kansas City! But, he's much more than a lawyer. He's married to April, the father of four and grandfather of five. He loves dogs because April loves dogs (and matching sweaters).
2. **Suzanne Popp** gave us a history of women in Rotary which started even before they were officially admitted in 1987. Our first four were Christine Pate, Carol Couture, **Ginger Cox**, and **Kris Grant**. Two of our first four are still members! And, Coronado Rotary is over 35% women!
3. Our new Environmental Committee is very active and **Zayanne Thompson** spoke about how important water is to our existence. She also thanked all the trash picker-uppers in Rotary as they picked up over 600 pounds of trash in the last quarter. Is a ton possible next year?
4. There's a District 5340 membership meeting this Saturday via zoom and starring **Ivan Dunn!** **Rob Taylor** reported that our membership is steady at 253, down one for the year, so far.
5. We received a couple of accolades: We're a Top 20 Club in Shelter Box, and **Sharon Raffer** reported Coronado Rotary was recognized as a 92118 Hometown Hero!

**Congratulations to us!!!
This week we received local
AND national recognition
for all the good we are ac-
complishing as a club.**

**Nationally,
we are among the top 20
clubs all-time in
supporting Shelter Box
USA. Well done, Coronado
Rotarians!**

Program

Pandemic President Robin introduced **Wes Danskin** of the United States Geological Society. When he's not SCUBA diving in Cabo, he's busy mapping the geology and water resources in the San Diego-Tijuana regional area. They're mapping the freshwater aquifers. The groundwater in the San Diego region is very modest, and there's even some 800 feet of freshwater sediment under Coronado. For your three units in graduate studies or if you have any questions about this: wdanskin@usgs.gov.
