COROTATOR

Notes from the Scribe

The most flexible, dynamic, and international Club in the universe visited CYC today and **President Rob** rang the meeting open. **Karol McClelland** was asked to offer the invocation, and **Dan Orr** got to introduce our former member **Gunther Blasio**.

In case you missed it, you can catch it here on YouTube:

Rotary Notes of Interest & Announcements

1. <https://tinyurl.com/prdchallenge2021> is the website if you want to join the Plant Rich Diet Challenge as presented by Scott Nelson of the Rotary Club of Ann Arbor North. The Challenge starts October 1 and runs fifteen days. You save the world; the **Humble Scribe** is going to get a hamburger!
2. We have a small problem. We're too popular! Too many Rotarians are showing up without making reservations and we're running out of food! Please RSVP when you get the email from the office.
3. More wine, and fresh horses for my men! More wine anyway. How about a \$100 six pack of wine? Curated by **Kris Grant** and **Pat Flynn** they will be available at **Jim Kaufman's** home at 920 Adella from noon to 1:00 p.m. Friday and Saturday, October 8th and 9th. Bring cash or check and retire to house and drink your wine.
4. We got a tour of the South Bay Salt Works and a bit of history from **Ivan Dunn**.
5. Where in the world is "Carmen Coronado?" **Karen Strabala** found our former Rotary Exchange student **Julia** in Lucerne, Switzerland. Originally from Sardinia, Julia is in Lucerne getting her Master's in economics. She was an exchange student five years ago.
6. If you continue to volunteer at Sharp Hospital's vaccine clinic email **LuAnn Miller** with your volunteer hours.

We've got a great group of Rotaracters—they hosted a Cornhole Tournament during District Conference! Way to go!

Our weekly trash pick up teams are making a huge difference—such as keeping shower curtains out of our beautiful bay.

Thank you all!

Program

Pat Starke introduced his Kansas City pal Peter Mallouk for a history of bitcoin, blockchain, and the internet. At the beginning the internet was centralized and blockchain has made the internet decentralized and portends changes in the way we use credit cards, property records, and transactions in general. People will maintain control over their own information. Crypto-currencies are here to stay, but is Bitcoin the one to survive?
