Rotary Clubs Hold Groundbreaking for Habitat House

By Richard Telthorst on Monday, August 23, 2021

Jefferson City's Rotary clubs broke ground Saturday on a home to be built at 902 Jackson Street this summer and fall. JCBRC member Kit Freudenberg is leading the four-club campaign that has raised more than \$ 40,000 to begin construction. The groundbreaking event was attended by Kit, along with fellow club member Mayor Carrie Tergin, River City Habitat for Humanity Executive Director Susan Cook, District Governor Joan Kramer, and site construction manager Kyle Kittrell. Work crews will be organizing soon to get construction underway.

Fall Trash Collection Set for September 11

By Richard Telthorst on Wednesday, August 11, 2021

Members of the Jefferson City Breakfast Rotary Club will help Missouri Boulevard shine a bit brighter on Saturday, September 11. That's the date for our fall trash pick-up along one of the city's busiest streets. We will gather in the Orscheln Farm & Home parking lot about 8:00 am. Bags, gloves, and sharpened sticks will be on hand to help the clean-up go smoothly. We will be finished by 9:00 am. Look for a sign-up sheet at Wednesday's meeting, or an email from project leader Steve Erickson.

Rotary Spotlight: Nicole Slusser

By Richard Telthorst on Monday, August 16, 2021

JCBRC member Nicole Slusser recently shared her 'wish list' with the club, which includes visiting the castle at Dollar, Scotland, spending the day with Elvis, and learning to play the guitar. Other fun facts included her experience eating mystery meat (perhaps monkey) on a Rotary trip to Panama, and her wish to have Melissa McCarthy play her role if ever there's a movie made about her life. A Rotarian since 2013, Nicole is a past club president, past service committee chair, and is a Paul Harris Fellow.

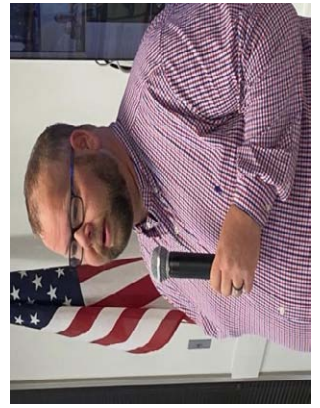

Boy Scouts Adds STEM Programs to Camp

By Richard Telthorst on Monday, August 23, 2021

The Boy Scouts of America have been adding technology training and other advanced resources to their local summer camp over the last five years, and are now the only camp in the nation with a recognized STEM program, according to Brad Kellerman, BSA District Executive.

Kellerman recently briefed club members on improvements to Camp Hohn at the Lake of the Ozarks Scout Reservation in Laurie.

STEM (science, technology, engineering and mathematics) programs have become part of the camp's offerings thanks to the generosity of Jean Sinquefield. The new Sinquefield Invention Campus includes a computer lab, laser engravers, and 3-D printers, as well as facilities for metalworking and other trade skills.

Join Us In Person - or by Zoom - for Wednesday's Meeting

By Richard Telthorst on Tuesday, March 2, 2021

Plan to join us for Wednesday's meeting at 7 am in the community room at Hy Vee, or by Zoom if you prefer. Just click on this link: [Join Rotary Meeting Now](#). "See" you soon !
