PROGRAM: Club Secretary, and PDG, Ed Foster, gave a program on using Rotary's DACdb internet system as well as the DACdb Mobile App. Ed explained how the DACdb program can enhance networking club-wide, district wide, and world-wide. Ed has extensive background and knowledge understanding the system's full potential following his work as Technical Support Representative over 5 years for the DACdb system. He showed how to add the Mobile App on your phone that provides many additional opportunities to stay connected with Rotary members and happenings while on the go. And in true Ed Foster spirit, he also used the App to provide a Polio Eradication update. He noted that only two countries, Pakistan and Afghanistan remain in the world as countries that had had outbreaks this year. Thank you, Ed for sharing your knowledge and providing a great program!

Until next time,

Purdue Pete
