Preventing COVID-19 is as easy as 1-2-6

The CDC recommends that all people, whether or not they have had COVID-19, continue to take these steps to prevent getting and spreading COVID-19:

1. Wear a mask
2. Wash hands regularly
6. Stay 6 feet away or more from others whenever possible

These practices can significantly reduce your risk of infection. But, if your start to feel ill with any of these symptoms: **fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea**, please stay home. And contact your primary care provider when appropriate.
