Please keep the following in mind when considering attending in-person meetings:

- ◆ Attending in-person meetings is not required. There are no attendance requirements at least through the end of the year. Additionally, we are working on making the meetings accessible via Zoom. Do not feel any obligation to attend in-person meetings if you are not comfortable doing so or feel it is unsafe.
- ◆ Anyone who is sick, infected with COVID-19 or exhibiting symptoms of COVID-19 must not attend in-person meetings.
- ◆ Guests and visiting Rotarians are not permitted to attend in-person meetings at this time. However, they are encouraged to join us via Zoom.
- ◆ Please be aware that the Governor's order strongly encourages people to wear face coverings as practicable while outside their homes except when eating or drinking.
- ◆ Please keep the following excerpt from the Governor's order in mind when deciding to attend Rotary meetings in person:

All residents and visitors of the State of Georgia who meet the following criteria for higher risk of severe illness as defined by the Centers for Disease Control and Prevention are required to Shelter in Place within their homes or places of residence:

1. Those persons who live in a nursing home or long-term care facility, including inpatient hospice, assisted living communities, personal care homes, intermediate care homes, community living arrangements and community integration homes.

Denton B. Ashway
Sergeant-at-Arms

Josh Bray
Club Service Chair

Burton Blackmar
Youth Services Chair

Austin McNeely
Interact Club Sponsor

Ken Terry
Past President

Hans A. Meier II
Assistant Governor

The Four-Way Test

Of the things we think, say or do...
Is it the **TRUTH**?

Is it **FAIR** to all concerned?

Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?

Will it be **BENEFICIAL** to all concerned?

2. Those persons who have chronic lung disease.

3. Those persons who have moderate to severe asthma.

4. Those persons who have severe heart disease.

5. Those persons who are immunocompromised. May conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medication.

6. Those persons, of any age, with class III so severe obesity.

7. Those persons diagnosed with the following underlying medical conditions: diabetes, liver disease, and persons with chronic kidney disease undergoing dialysis.

◆ Until further notice, lunches will be pre-prepared with no buffet service.

◆ Tables will be arranged with seating of no more than 6 people and appropriately spaced out. Please adhere to this and do not add seating or rearrange the setups.

This week in history: 1997

U.S. Air Force reports on Roswell

On June 24, 1997, U.S. Air Force officials release a 231-page report dismissing long-standing claims of an alien spacecraft crash in Roswell, New Mexico, almost exactly 50 years earlier.

Public interest in Unidentified Flying Objects, or UFOs, began to flourish in the 1940s, when developments in space travel and the dawn of the atomic age caused many Americans to turn their attention to the skies. The town of Roswell, located near the Pecos River in southeastern New Mexico, became a magnet for UFO believers due to the strange events of early July 1947, when ranch foreman W.W. Brazel found a strange, shiny material scattered over some of his land. He turned the material over to the sheriff, who passed it on to authorities at the nearby Air Force base. On July 8, Air Force officials announced they had recovered the wreckage of a flying disk. A local newspaper put the story on its front page, launching Roswell into the spotlight of the public's UFO fascination.

The Air Force soon took back their story, however, saying the debris had been merely a downed weather balloon. Aside from die-hard UFO believers, or ufologists, public interest in the so-called Roswell Incident faded until the late 1970s, when claims surfaced that the military had invented the weather balloon story as a cover-up. Believers in this theory argued that officials had in fact retrieved several alien bodies from the crashed spacecraft, which were now stored in the mysterious Area 51 installation in Nevada. Seeking to dispel these suspicions, the Air Force issued a 1,000-page report in 1994 stating that the crashed object was actually a high-altitude weather balloon launched from a nearby missile test-site as part of a classified experiment aimed at monitoring the atmosphere in order to detect Soviet nuclear tests.

On July 24, 1997, barely a week before the extravagant 50th anniversary celebration of the incident, the Air Force released yet another report on the controversial subject. Titled The Roswell Report, Case Closed, the document stated definitively that there was no Pentagon evidence that any kind of life form was found in the Roswell area in connection with the reported UFO sightings, and that the bodies recovered were not aliens but dummies used in parachute tests conducted in the region. Any hopes that this would put an end to the cover-up debate were in vain, as furious ufologists rushed to point out the report's inconsistencies. With conspiracy theories still alive and well on the Internet, Roswell continues to thrive as a tourist destination for UFO enthusiasts far and wide, hosting the annual UFO Encounter Festival each July and welcoming visitors year-round to its International UFO Museum and Research Center.
