

Recap of Club Meeting 10/12/2021

Our fundraiser dollars have been so well spent. This week we met two more grant recipients. There is so much good being done in our community, and so many that need help. It is so reassuring to know that John Marmish and committee made some excellent selections. St. Margaret's Food Pantry has been feeding those in need for many years. They used to serve hot meals until Covid shut them down. This part of their program is still closed. However, they still provide provisions every Tuesday and Wednesday. Some of their goods need refrigeration, some needs a freezer. Their freezer failed. We provided them with the means to get it replaced. We helped them to help others. Mid-Florida Homeless Coalition helps folks that have difficulty connecting the dots. They may need money for first/last for rental housing, pet deposits, work boots for a job, applications for ID's, or a bus ticket to reconnect them to family and a home where they can stay. Every situation is carefully studied for what the best benefit will be for that person. Truly giving to those that can do the most "good for all concerned", is what rotary is all about.
