Can you believe we have one meeting left in this Rotary year? Wow! But before we get to that we must take a look back at last weeks meeting. We heard a member spotlight from **Dr. Joey Krainin** who joined TBRCITW in January of this year. We are so happy to have you a part of our club and thank you for sharing your stories with us! A spectacular presentation last week by Chris

Fischer of Ocearch. A non-profit organization Ocearch focuses on generating critical scientific data related to tracking (or telemetry) and biological studies of keystone marine species, including great white and tiger sharks, while simultaneously continuing its efforts in the areas of conservation and education, all on a measurable yet global scale. They share real-time scientific data through its Global Shark Tracker and leverages that data to engage students with interactive lesson plans and inspire the next generation of explorers, scientists, and stewards of the ocean. Ocearch will also be making Mayport home in the very near future which will be a great additional to the First Coast. The first step in process is rebuilding the dock, large enough to host events and to be the home port for

OCEARCH's vessel. That is expected to take two years. In the meantime we can stay connected on their site: <https://www.ocearch.org/tracker/?list>. Congrats to **Ed Buenaga** for being our Rotarian of the Month for June. You ROCK Ed! Thank you for all you for TBRCITW!

June 25th Program:
