October - Economic and
Community Development
Month

Economic and Community Development Month

Economic and Community Development is one of the six areas of focus the Trustees of The Rotary Foundation have identified for the new grant structure. These areas reflect critical humanitarian issues and needs that Rotarians are addressing worldwide. They will align Rotary with other international development efforts and will strategically further the Foundation's mission.

Statements of purpose and goals

The Rotary Foundation invests in people to create measurable and enduring economic improvement in their lives and communities by:

- Strengthening the development of local entrepreneurs and community leaders, particularly women, in impoverished communities
- Developing opportunities for decent and productive work, particularly for youth
- Building the capacity of local organizations and community networks to support economic development
- Supporting studies related to economic and community development
