09-06-21 President's Update

By Keith E Logan on Sunday, September 5, 2021

According to the Rotary document "[Vocational Service in Action](#)," the concept of vocational service in Rotary is rooted in high ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society.

How can we put these ideals into action? Rotary International suggests the following:

- Talk about your profession in your club, and take time to learn about fellow members' occupations.
- Use your skills and expertise to serve a community.
- Practice your profession with integrity, and inspire others to behave ethically through your words and actions.
- Help young people achieve their career goals.
- Guide and encourage others in their professional development.

As we celebrate Labor Day this week, let us think about how we can leverage our work in our professional lives into serving our community through Rotary.

Care & Concern, 9/4/2021

By Craig M. Kirkpatrick Jr. on Saturday, September 4, 2021

Dear Keith and Karolyn--Here's this week's Care & Concern report. 1. Broward Davis--Bernie, Broward's better half, reported Broward was in dialysis yesterday, but otherwise doing very well. The dialysis schedule is Monday, Wednesday and Friday, which should leave time to attend our meetings when we resume in person sessions. Broward is looking forward to that as we all are.

2. Larry Elliot's wife, Helen--Helen's also doing well. This coming Tuesday, at the recommendation of the doctor's in Omaha, she will go to see a radiation oncologist on Tuesday about possible followon radiation treatments, especially in light of her history and battle with lymphoma. Of course, this will all take place in Lincoln, NE, where Larry and Helen are now. Let's pray all goes well and God guides the hand of the physicians who are treating her.

3. Jon Kilpatrick's wife, Tina. No real followup to last week's information that Tina was beginning to feel the cumulative effects of chemo--no surprise there, but it's tough to watch someone you love go through that challenge. Please continue to keep these folks in your prayers.

4. Ron Holt--as reported last week, Ron underwent surgery for his neck injury this past Thursday, Sept 2nd. I have not called for an update and will not bother Ron until next week to give him time to get over the pain, etc. Please stay tuned and keep those prayers coming in.

Respectfully submitted,

Keith W Johnson

September is Basic Education and Literacy Month!

Why?

Basic education and literacy is one of The Rotary Foundation's six **Areas of Focus**. Rotary knows that basic education and literacy are essential for reducing poverty, improving health, encouraging community and economic development, and promoting peace both in our local communities and around the world.

What Rotary Does!

We take action to empower educators to inspire learning at all ages. We do this by supporting education through **scholarships**, **donations**, and **service projects** around the world.

What Can My Club Do?

Take this month to focus on what your local club can do to help in this area of focus. Is there a need in your local community to help improve literacy in adults? Are your local schools in need of books and material to help teach young new readers. Now is a great time to start planning fundraisers to use for local high school scholarships!

Again, this year schools are facing a difficult time educating students during a global pandemic. Reach out to the local schools and see how your club can help (school supplies, PPE gear, distance learning assistance). Make a difference in your community and around the world.
