Past

President Tim puts our current/future officers through their paces

Got an idea for speakers? Dr. Q is rounding up some great speakers for our upcoming meetings, but we can always use suggestions and ideas. Please contact Dr. Q at [?muquarrabqureshi@gmail.com](mailto:muquarrabqureshi@gmail.com) with your suggestions and/or ideas.

Upcoming:

Friday, July 16, 11:00 a.m. Rotary BOD Meeting at the University Club.

Friday, July 16, 12:30: Samantha Frigerio and Luca Rolleri, **NC Museum of Natural Sciences' Dueling Dinosaurs Exhibit.** How fast did Tyrannosaurus grow? What did the scales on a Triceratops look like? Can we really tell what colors dinosaurs were? The recent museum acquisition of the mysterious Dueling Dinosaurs specimens may help us answer these questions. Join Sam and Lukas from the North Carolina Museum of Natural Sciences as they unravel these surprises in the exciting world of paleontology!

Sam graduated from the University of Georgia with a BS in Ecology and has been teaching in environmental education for the last 7 years. She loves animals and inspiring an appreciation of the natural world in learners of all ages. Sam also enjoys finding creatures around her house and neighborhood!

Lukas grew up in Cary and is currently an outreach specialist at the North Carolina Museum of Natural Sciences specializing in dinosaurs and other prehistoric things. He started out volunteering in the paleontology lab a few years ago and has even had the chance to go to the field with them! He holds a bachelor's degree in anthropology and is super excited to talk to you all today about the museum's upcoming paleo-projects.

Friday, July 23, 12:30: **NC Housing Coalition.** More info to come next week.
