I remain grateful for each of you, as you are someone that values Rotary and the possibility that Rotary represents in your own life, in your community, in your work and in the world. I know through this leadership experience that there are so many others waiting for the same connection to a Club that aligns with their time, talent and treasure. It is why we are currently in the top 3 in Membership growth in Zone 33, which is comprised of 17 Districts. That shows the need of Rotary and is a testament to your engagement with your Rotarians.

Rotary International is a global entity; each Club, however, has its own uniqueness in focus, membership, dues, etc. As we approach this next Rotary year, I want to ask each of you to ensure as a Rotarian that you know what is required for membership in your Rotary Club. How one is proposed is different and sets the tone for the new member's experience.

Start with the Club Bylaws as every Club has an outline of the framework for membership. Have a full Club conversation at least quarterly about what is the goal with membership for your Club that considers your venue, your Club's needs to serve others, community needs, club focus, the mentorship in place, the orientation in place, etc. And most importantly, HOW does one propose membership and how does that process work best in your Club. Communication is always key and it takes repetitive and constant clarification to ensure everyone is informed.

We are a volunteer network that relies on the strength of its membership to strengthen membership. I have said many times this year, that focus and clarity is critical to Club health.

Thank you for continuing to elevate Rotary in all that you think, say and do! We are opening so many opportunities!
