

Rotary

District 7730

Dawn's Monday Message

Happy Wednesday to all Rotaractors and Rotarians in District 7730!

It is March and we are now squarely in the season on transition in Rotary with our Presidents Elect finalizing their requirements March 18-20 with President Elect Training Seminar, Rotarians to lead projects being selected for our next Rotary year, finalizing projects happening for this Rotary year♦..and this is just part of your civic involvement and your volunteer life!

I want to thank you for whatever part that you have had in contributing to positivity, kindness and grace in this season. It starts with us, in our homes, in our businesses and in our Clubs. How people feel when they interact with Rotarians and Rotary Clubs is how we are remembered. It is our greatest legacy and our greatest responsibility. Through relationships, people want to work together, people will hear each other and no matter the walk of life, people feel included.

I invite you to join us on our District Call Monday, March 8th at 4pm EST as we update all things happening in the District. Join us by Zoom in the video conference mode or by calling in. Email, Zooms and phone calls is our primary mode of connection as a District. You can always find the log in by going to the Calendar in DACdb.

DACdb is your cloud-based system for your Rotary Club and our Rotary District. I like to call it our brain and our brain is only as good as the data we input. If you can take a moment and ensure that your information is correct to ensure that in a disaster, a need, a celebration, we can reach you. Rotarians and Clubs can opt in to texting to check on folks when you need to. Please log in today and update your information: <https://www.dacdb.com>. If you don't know your login just enter your email and click on forgot password. Still need help contact lin@linkelly.com.

See you on the call on Monday!

In Rotary Service

~ Dawn
