District 7730

Message from Dawn

I watched a Netflix series this weekend entitled The Playbook. I always draw a lot from sports as there is always a score to beat and a goal to make. Doc Rivers, legendary Coach with the Celtics and the Clippers, introduced me to a philosophy in this documentary. It is called Ubuntu. In my interpretation from listening and reading more, it means that when you are your best, I can be better. ♦ I am because of who we all are. ♦

Rotary rests on 115 years of Ubuntu in my eyes as I am always better from being around you as you give to humanity and you want more for your community.

That is the message this week. Thank you for all that you continue to do in the lives of others.
