## Last Week's Program

The program for our last meeting was presented by Tim Dunlap, who spoke about the Carolina Country Club and where golf has been during the COVID pandemic. He pointed out that the golf industry has been in decline over the past 30 years, making it a challenge to keep the doors open, but the number of rounds played are actually up 20-60%. Some reasons why there has been an increase during this time are that golf is a relatively safe option for recreation, it is played outdoors, a good outlet, flexible scheduling, it is fun, good for physical and mental wellness, as well as the comradery of the sport.
