## Last Week's Program

Last week our program featured the high school winners of the 2021 Piedmont Region III Science Fair, Cam Srvartava and Logan Kusher. Their program was titled "Should drinking water be disinfected with Monochloramine?" They described their experience with the national "Virtual Exhibit Hall". Thanks again to Mary Mathes for coordinating everything for the science fair. This is the 66th year that our club has sponsored the event, focused on students who are passionate about science.
