Speaker description: Treacy Riiska has been a CPA for over 30 years, and does professional speaking relating to credit scores and debt. Treacy says your perfect FICO score should be zero, as it means you don't take on a lot of debt. Credit companies spend billions on advertising, to brainwash you into thinking you need to take debt out to look good financially, which isn't true. An UltraFICO score is based around your checking account, not only on your debt. Pay your debt off as soon as possible and make the move to debit, which is as secure as credit.

-Former President Herbert Hoover, 1938 address

Did you know: While the wind on Mars can blow up to 60 miles per hour, the atmosphere is only 1% as dense as Earth's, so the wind would only effect you as much as a .6mph gust on earth.
