District Conference 2017

By David J. Reece

2017-04-09

The District Conference is just around the corner. I hope you will join me at discon 2017 May 18 thru May 21 in Albany. This is a chance for all of us to "Come Together" to celebrate a great year, be inspired by world class speakers and topics, and build better friendships. The links below will take you to an explanation of the Literacy Service Project and sign ups for that as well as the Silent Auction, Sponsorship Opportunities, and Rotarians on Display. Learn more at the discon website:

<http://www.district5110.org/conference>.

Please Review These Resolutions for the District Conference

By John G. Cox

2017-04-08

One of the responsibilities of the Resolution Committee is to distribute to all member clubs of our District, at least one month prior to the district conference, all proposed resolutions, other than those of a congratulatory or commendatory nature, and to refer to the succeeding Resolution Committee all resolutions proposed by any member club with are received

too late for the achievement of such distribution within the month preceding the district conference.

Attached are three resolutions that will be voted on at the District Conference in May. Please review.

Proposed Resolution 2017-001_

Amending and correcting the district 5110 rotary foundation committee manual

pertaining to grants policies and procedures

Polio Update

By Cort Vaughan

2017-04-09

Cases of Paralytic Polio – April 5, 2017 - Source Global Polio Eradication Website

Total Cases	Year to date 2017		Year to date 2016		Total in 2016	
	WPV	cVDPV	WPV	cVDPV	WPV	cVDPV
Globally	5	0	9	3	37	5
Endemic countries	5	0	9	0	37	2
Non-endemic countries	0	0	0	3	0	3
Afghanistan	3	0	2	0	13	0
Lao PDR	0	0	0	3	0	3
Nigeria	0	0	0	0	4	1
Pakistan	2	0	7	0	20	1

I thought that this week would be a good time to discuss something a bit different – surveillance.

Polio surveillance has two basic components, human screening for the disease and environmental screening for the poliovirus.

There are four steps in human screening.

1. Find and report children under the age of 15 with acute flaccid paralysis (AFP).
 - a. Performed by health care workers who must promptly report every case of AFP to public health officials promptly.
 - b. Public health staff must regularly visit hospitals and other facilities to search for overlooked or misdiagnosed cases.
 - c. To be reliable, a country must identify one case of AFP per 100K children.
2. Transport stool samples for analysis
 - a. Two stool samples are required to be collected from every child with AFP. It is best to collect the first sample within 48 hours of symptom onset and the second 24 to 48 hours later.
 - b. Stool samples should be immediately refrigerated and shipped on ice or dry ice to a testing laboratory and received at the lab within 72 hours of collection.
3. Isolating poliovirus
 - a. Virology labs attempt to isolate poliovirus and if isolated, verify if the virus is wild or cVDPV.
4. Mapping the virus

- a. Determine the genetic makeup of the virus and compare the genetic makeup with other polioviruses to pinpoint from what geographic area the virus originated.

This is the process that generates the number of new cases reported each week by the WHO that I typically forward on to you in these updates.

Environmental surveillance is the testing of sewage or other environmental samples for the presence of poliovirus. Positive environmental samples indicate that the poliovirus is circulating in a community even in the absence of cases of paralytic polio. Why? It is because 90 percent of poliovirus in the environment is cleared every 26 days. Without continued reintroduction of the poliovirus into the environment it is largely gone in a matter of months. One of the goals that you may recall of the Polio Eradication and Endgame Strategic Plan is to improve detection of the virus. In countries with areas with open defecation obtaining adequate environmental samples for testing is problematic. Sewers provide a easily assessable sampling source from many people.

The following table reports the number of environmental samples collected that were positive

Environment samples positive for the wild poliovirus – April 5, 2017						
Total cases	2017	2016	2015	2014	2013	2012
Globally	23	64	104	160	213	106
Afghanistan	2	2	20	17	0	0
Egypt	0	0	0	0	0	2
Israel	0	0	0	14	136	
Nigeria	0	0	0	1	3	15
Pakistan	21	62	84	127	66	89
West Bank and Gaza	0	0	0	1	7	0

for the wild poliovirus this year and for the previous five years.

Submissions to eNews

By Mark C. Walker

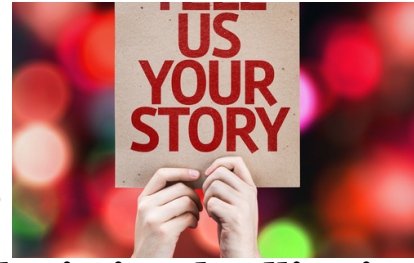

2016-07-12

Please submit photos, news, and brags to

district5110enews@gmail.com. We welcome your news and announcements.

eNews is produced in DACdb ezBulletin and sent to active D5110 members via PMail. Please submit your SHORT stories and great photos of Club events accomplishments and service projects. Submission deadline is Thursday evening the week before publication.

"Let's Leave No Girl Behind" project kicks off!

By Rick Francona

2017-04-08

The E-Club of the State of Jefferson international literacy project kicked off last week in Nuevo San Ildefonso, Guatemala, a small Mam village in a remote cloud forest located about three hours from the Adopt-a-Village Maya Jaguar Educational Center.

Thirteen young women are participating in the "Let's Leave No Girl Behind" project in which they are learning Spanish as their second language—the legal and required language of Guatemala.

Since only about 10 percent of the indigenous girls have the chance to complete primary school, most never learn to read and write in Spanish. Opportunities to learn to read and write in their native Mam language of are virtually nonexistent.

Juan Diego, our “traveling teacher” - seen in the photo above - trained at the Maya Jaguar Educational Center, proudly heads up this prototype literacy project.

Juan spends two days each week in the village, working with young women eager for an opportunity to become literate.

The project is supervised by two of our club members from Guatemala – Osman Castaneda and Selvin Rivas.

Scott Valley Golf Tournament

By Louise Vintonne McNeil

2017-02-10

Sign Up Sheet For
**Rotary Club of Scott Valley
Twenty Fifth Annual Golf
Tournament**

To be held at Weed Golf Club
Format - 4 person Team Scramble

PRIZES GALORE!!!!

Saturday - April 22, 2017

8 AM registration--9 AM shotgun start

Free donuts, coffee, soft drinks, hamburgers, and polish sausage.

1.
2.
3.
4.

Team Captain's Phone Number:* If no ghin# please put none.

Eugene Rotary ArtSpark

By Ravitej Singh Khalsa

2017-01-20

ArtSpark has been officially announced at the January 10th meeting of the Rotary Club of Eugene. The goal of the project is to fund artists in residence at area schools. Budget cuts at schools has resulted in a cut in arts programs. Rotary is coming to the rescue in Eugene by funding and volunteering time with artists who come in to classes and conduct art lessons with projects. Rotary Club of Eugene has been doing this as an experiment for a year and it has been highly successful. Long time reports indicate kids are more engaged in learning when involved with art. And Important esteem build occurs. Self expression and exploring creativity make for more balance in school. The ultimate goal is to reach all kids within four years. The event in April will be fun and festive and promote both arts in the schools and Rotary in the community. You can see a video of the January 10th presentation on the eugenerotary.org website or view directly at the club vimeo site: <https://vimeo.com/199481735>

Philomath Salmon and Jazz

By Fred E. Shaub

2017-03-25

The Rotary Club of Philomath presents our 18th Annual
