Water scholars studying to help solve world issues

By Chuck Root on Monday, October 21, 2019

Imagine seven countries fighting over the same water source. Our seven scholars who currently are studying at Oregon State University in Corvallis may help to prevent conflict among nations needing water resources in the Aral Sea.

World Polio Day celebrated October 24

Poliomyelitis, or polio, is a paralyzing and potentially fatal disease that still threatens children in some parts of the world. Poliovirus invades the nervous system and can cause total paralysis in hours. It can strike people of any age but mainly affects children under five. Polio can be prevented by vaccines, but it is not curable. Unlike most diseases, polio can be eradicated.
