## Our Club and the Rotary Foundation

By David Donald Campbell

After a long COVID-constrained hiatus our Berkeley Rotary Foundation once again enjoyed the honor at last Wednesday's meeting of acknowledging our latest cohort of Paul Harris Fellows. Welcomed newly with certificate and lapel pin to this esteemed group were: **Darryl Bartlow, John**

**Denvir, Ignacio Franco, Eva Gero, Kathy Huff, president-elect Arlene Marcus, and David Poock.** Past President and Endowment Chair **Tina Etcheverry** generously wanted to highlight several Berkeley Rotarians for their many good works and selfless service, and in so doing also demonstrated how Rotarians can transfer their Foundation Recognition Points to other worthy and deserving individuals - to help promote them to the level of Paul Harris Fellow. Good going Tina...and great going to our new Paul Harris Fellows! Another large cohort of 15 advancing Paul Harris Fellows were also acknowledged with their respective new pins at the following levels: **Jason Draut (+1), Tom Olson (+1), Beth Roessner (+1), Valerie Bach (+2), Michael Endlich (+2), Alan Fraser (+3), Ashraf Khawaja (+3), Josh Oliver (+3 & +4), Austin Henderson (+4), Dr Lynne Henderson (+4), Carol Neil (+5), Maxim Schrogin (+5), Joan Collignon (+6), David Malcolm (+7), and Sallie Weissinger (+8).** Congratulations one and all!

Kudos and thanks also to our Foundation team who presented and also help make our Foundation work go: **Shawn Rowles, Larry Goldenberg, and Judith Glass.** Shawn

## Single Payer Health Care in Contemporary America

By Pate D. Thomson

Dr. Sapir presented a data filled talk advocating support for a Single Payer Health Care (House Resolution 1384). Or was it a critique of US health care? It was both. He based this position on facts about US health care and he countered the attacks against the Medicare for All proposal.

Most notable was the revelation that the US per capita spending is twice that of other affluent nations. The outcome, as measured by infant mortality, life expectancy and other parameters of population health, shows the US coming out a distant tenth among ten of the most affluent nations. It was clear that we are not getting a bang for the buck and there are enormous costs in the health care bureaucracy and systems.
