The screenshot shows the MyRotary dashboard interface. At the top, there is a navigation bar with the Rotary logo, 'My Rotary' text, and buttons for 'Donate' and 'Refer'. Below this is a menu with categories: 'My Rotary', 'Participate', 'Events & Connections', 'Knowledge & Resources', and 'Who We Are'. The main content area features a large image of a diverse group of people in conversation. Below the image, there is a personalized greeting 'Hello, Leo' with a 'View Profile' link. To the right, two information cards are displayed: 'Oro Valley (Rotary Club)' with a 'View Club' link and 'District 5500' with a 'View District' link. A red arrow points from the bottom of the dashboard towards the 'View Club' link.

Edit Club Management Systems

A Rotary or Rotaract club can simplify its recordkeeping and support Rotary programs and membership by using one or more club management vendors to share club members' personal data among the club, Rotary International and the club management vendor. A district or zone may also use a vendor to view club members' personal data if the club allows that vendor access to club information. (Note that, though more than one vendor may be authorized to view a club members's personal data, only one may update the data.)

First, your club must be a customer of a club management vendor. Find a list of the vendors that provide database services on the Club Management Systems & Website Providers page of My Rotary. Then, your club can allow the vendor access to club members' personal data by choosing the appropriate link below.

Please visit RI's Privacy Policy (found at <https://my.rotary.org/en/privacy-policy>) for more information about how RI processes personal data. Please consult with the Club Management Vendor to determine its practices for processing personal data.

Note: You can allow multiple vendors view-only access but only one vendor can update your data. Repeat this process as many times as necessary if you allow multiple vendors view-only access to your club data.
