Shaun Yu called out a couple of Rotarians who were in the DDN: Brian Martin honored with Walter Scheiber Leadership Award and Holly Wiggins with a photo presenting a \$50,000 grant from AES Ohio to Miami Valley Treecovery Campaign.

Chuck Vella then introduced Gregg Hopkins, Executive Director of Community Health Centers of Dayton as our speaker of the day. Community Health Centers of Dayton provide medical/primary care, dental and behavioral health and enabling services (patient education, translation, and assistance with transportation and financial eligibility). Mission Statement - Improving lives by providing quality primary and preventive health care services to those in need regardless of ability to pay. They have 6 centers all conveniently located in different areas of the community. They also have school based services with a Mobile Health Unit partnering with Dayton Public Schools and they also partner with Miami Valley Child Development Centers (Head Start) to provide dental care in those centers. Coming soon they will be opening an additional center in Huber Heights which should be open by November.

What is a FQHC? (Federally Qualified Health Center) 1400 organizations around the country 55 in Ohio that all receive a federal grant but it is only 15% of their budget most of their funding comes from their patients. They are required to see patients regardless of their ability to pay, to provide primary care, dental, behavioral health and enabling services and also required to offer patients a sliding fee discount. They are also required to have a patient majority Board of Directors. They can either have a pharmacy within their walls or to contract with a pharmacy to provide discounted medications.

Payer Mix: Medicaid - 60%; Medicare - 21%; Private Insurance - 12% and Uninsured 7%. In 2020 their unduplicated patients were 15,935 and total billable visits 52,399. Hypertension, Diabetes and Asthma are their top patient issues. Community Health Centers of Greater Dayton has been nationally recognized by Health Resources and Services Administration as a Health Center Quality Leader. Received a grant from Pfizer and American Cancer Society - Breast Health Equity Grant to develop a plan close the mortality grant for African American Women and breast cancer.

Gregg then spoke to the group about their current PSA campaign Men: Know your Numbers which includes television ads, radio and print ads. It shows from ages 19-29 women are visiting the doctor 2x the amount of men. This is the "age of invincibility" Even in their 40's and 50's guys still tend to visit doctor less.

In 2016 Community Health Center partnered with Molina to provide Men's Health Fairs providing health screening, education, panel discussion and included several vendors held the Saturday before thanksgiving. This was discontinued last year due to COVID. Molina still wanted to partner on this issue so Gregg shared an idea with Chuck Vella and Molina he had about Men knowing their numbers and they developed a plan to enlist the help of athletes of guys affiliated with sports and have ties to the Dayton region. They would correlate their sports numbers to health care numbers such as blood pressure, blood sugar, cholesterol and PSA levels. With the help of Tom Archdeacon they contacted some athletes and Molina agreed to co-sponsor the campaign. Edwin Moses, Roosevelt Chapman and Keith Byars have all agreed to participate. He shared with us the tv spots of each and shared the following print ad example.

After a Q&A session President Shaun thanked Gregg for presenting to the group and adjourned the meeting.
