

"FLORIDA" A SEMINOLE GIRL GOES TO WASHINGTON, DC.

Celebrating Florida House 50th Anniversary 2023

Florida House garden by front door

50th Anniversary

To commemorate the Florida House 50th Anniversary in October 2023, Master Sculptor Nilda Comas is creating a smaller replica of the "Florida" A Seminole Girl statue located on the banks of New River opposite the historic Stranahan House on Las Olas Blvd in downtown Fort Lauderdale.

Florida House

This beautiful building on Capitol Hill in DC, known as the Floridian Embassy, provides an open door for Floridian visitors, students, dignitaries, and others. Whether it is a place to rest, eat, charge a battery, obtain tickets to a museum or a show or host your own gathering, it is an oasis in DC for Floridians. This unique bronze on a pedestal of colorful Seminole tiles in the garden of the Florida House will be a standout in DC.

Book: "Florida" A Seminole Girl Statue

A book is underway that will provide information about the Seminole Girl statue, its creation in the world famous Fonderia Del Chiaro Studios in Pietrasanta, Italy, and information and pictures about the sponsors whose names are on the tiles.

Sponsor a Tile

The pedestal of "Florida" A Seminole Girl statue at Florida House will consist of 144 colored tiles with names of sponsors.

Sponsor levels: \$500, \$1500, \$1500 Each tile has 3 lines with up to 28 characters per line.
