

Project Synopsis: Setting up an Operation Theater at Maharaja Agrasen Nursing Hospital in Bahadurgarh

Introduction:

The community of Bahadurgarh, Haryana has been facing challenges in accessing high-quality healthcare services, particularly in the area of surgical procedures. To address this issue, the Rotary Club of Delhi Rajdhani has partnered with Maharaja Agrasen Nursing Hospital to set up an operation theater that will provide free surgical services to the community.

Assessment:

Before embarking on the project, a community assessment was conducted to identify the specific needs and concerns of the community. The assessment involved speaking with community representatives, including a teacher, a doctor, and a local representative, as well as beneficiaries who are not involved in Rotary. Through this process, it was identified that access to high-quality surgical services was a significant concern for the community, as it was often prohibitively expensive or not available at all.

Beneficiaries:

The project will directly benefit the community of Bahadurgarh, including schools, hospitals, vocational training centers, cooperatives, and villages. The beneficiaries were identified through a thorough assessment of the community's needs and concerns.

Project Design:

The project will involve setting up an operation theater at Maharaja Agrasen Nursing Hospital in Bahadurgarh. The theater will be equipped with the latest surgical equipment and technology to ensure high-quality surgical services. The project will also provide training and support to medical staff to ensure that they are equipped with the necessary skills and knowledge to provide effective surgical care.

Challenges and Gaps:

The community faces several challenges and gaps in their behaviors, skills, and knowledge related to healthcare. These include a lack of awareness about the importance of preventive care, limited access to healthcare facilities and services, and insufficient knowledge about healthcare practices and procedures.

Strengths and Resources:

The community of Bahadurgarh has several strengths and resources that will support the success of the project. These include a strong sense of community, a willingness to collaborate and work together towards common goals, and a commitment to improving the health and wellbeing of community members. Additionally, Maharaja Agrasen Nursing Hospital has been operational for several years and has built a reputation as a trusted and reliable healthcare provider in the community.

Project Goals:

The main goal of the project is to provide high-quality surgical services to the community of Bahadurgarh, particularly to those who may not be able to afford such services. By doing so, the project aims to improve the overall health and wellbeing of the community, reduce healthcare costs, and increase access to healthcare services.

Project Outcomes:

The project is expected to have several outcomes, including:

- Improved access to high-quality surgical services for the community of Bahadurgarh
- Improved health and wellbeing of community members
- Reduced healthcare costs for the community
- Increased knowledge and awareness about healthcare practices and procedures
- Increased collaboration and partnerships between healthcare providers and community members

Conclusion:

The partnership between the Rotary Club of Delhi Rajdhani and Maharaja Agrasen Nursing Hospital to set up an operation theater in Bahadurgarh is an important initiative that will have a significant impact on the health and wellbeing of the community. By providing free surgical services to community members, the project will address a significant gap in healthcare services in the area, while also building partnerships and collaborations between healthcare providers and community members.
