

March, 2024  
The Musical Recorders Project  
Agreement: Notes to the File  
Renton School District  
Rotary Club of Renton  
Renton Schools Foundation

This document memorialized the plan to continue the Musical Recorders project, which now calls for the Rotary Club of Renton to purchase a musical recorder for each of the 4th grade students in the Renton School District. Given the new commitment of financial support by the Rotary Club, the project will commence in September of the 2024/ 2025 school year.

The purpose of the Musical Recorders Project is to support the Renton School District's music curriculum and to create an opportunity for the Rotarians to show support, interest and interact personally with the students. Rotarians will present the instruments to students (on a schedule convenient for each elementary school) and attend "concerts", when possible. The recorders are a gift for the students to keep, learn musical skills, team work, the value of practice as they enjoy making music.

In the past, the Musical Recorders were supplied by the Renton Schools Foundation. Moving forward, the Foundation will continue supporting music in other ways. In collaboration and after discussion among representatives of the Foundation, School District and Rotary Club, there is agreement that moving forward, the project to purchase and present recorders will belong the Rotary Club of Renton.

Gratitude is expressed to all partners for generous cooperation to finalize the new Musical Recorders plan.
