“BARRIER-FREE DREAM CAFÉ PROJECT”

HİZMETLERİMİZLE
HAYATLARI DEĞİŞTIRELİM

ROTARY İLE
HAYAL EDELİM

Project Topic:

Individuals with cerebral palsy who are exposed to social exclusion;

Not be able to discover their abilities, needs someone else's support, living and isolated life, thinking that they cannot handle even daily tasks.

Undoubtedly, the most rational way to integrate individuals with cerebral palsy into society within the framework of equality without discriminating them from other individuals and to ensure that they can continue their lives independently without needing anyone, is undoubtedly to ensure that they can enter the working life.

Project Goals:

“BARRIER-FREE DREAM CAFE PROJECT”

It is planned to be implemented that individuals with cerebral palsy can actively participate in social life and gain their economic freedom.

It was designed to raise awareness of people who are not aware that individuals with cerebral palsy can take an active role in life, and even to gain support for the next steps that can be taken so that they can be more integrated with practical life.

It is aimed to help disabled people who are stuck between physical therapy centers and their homes without alienating themselves from the society in terms of social, material and spiritual aspects.

Academicians of universities will be benefited and new employment areas will be created with the results obtained. Cooperation between the Ministry of Family and Social Policies and the Ministry of Labor, İŞKUR will be ensured, and the issue of proving the feasibility of individuals with SP in terms of education and employment will be shown as an example in this cafe.

Tea, coffee and cookies produced by the mothers of our children with CP will be sold with the emphasis of hygienically problem-free, with the permission of the Ministry of Agriculture "there is no harm in selling". The income generated will both support the employment of the cafe's employees and fund the development of the cafe.

Project Scope:

MAIN PURPOSE

Setting an example for other businesses to overcome their fears of employing disabled staff.

To develop and reveal potential their, train an individual in a job they can do with their abilities, to provide economic and social welfare, raise individuals with self-confidence and full participation in production and social life.

Attention will be paid to the suitability of the created environment and the ergonomics of every area that the individual with cerebral palsy will use.

To show that our young people with cerebral palsy are successful in life by providing employment in this cafe.

Timeline

The only Cerebral Palsy Foundation in Turkey is SERÇEV (<https://sercev.org.tr/en/homepage/>) and we cooperate with them. We would like to realize our project at the beginning of the term, donate the vehicle to SERCEV use and regularly include it in our rotary projects.

The Budget

BUDGET ITEM	PRICE
INTERIOR DESIGN and EQUIPMENT INSTALLATION	21.000,00 USD
TRUCK (Second Hand Ford1838)	60.500,00 USD
TRAILER	Financed by our sponsors
TRAININGS	Financed by our sponsors
TOTAL	81.50,00 USD

The Motivation

In the project to be realized in cooperation with SERÇEV (Children with Cerebral Palsy Association), we aim to use the trailer within the structure of Ankara Beysukent Rotary Club. We want to realize a global grant project for the interior design and equipment placement of the trailer and the tractor that will take the trailer to the project areas. Local coffee shops ARABICA and COFFEE LAB will be sponsors for barista trainings.

This cafe will also be used in the projects of our Rotary clubs.

We are more beautiful with different colors!!
