

Moshchun project

Modular houses for inhabitants of destroyed
Moshchun village near Kyiv, Ukraine

BACKGROUND

- **Rotary clubs in Ukraine (District 2232)** decided to focus one of the big projects on help in recovery of the heroic village Moshchun near Kyiv, where the Russian advance on Kyiv was stopped; 85% of buildings in Moshchun were destroyed or seriously damaged; 1st stage of this project is to supply up to **300 modular houses** as temporary shelter for families who lost their homes in order to survive during cold winter. In line with other humanitarian projects in Ukraine, this project will show a good example for other humanitarian organizations and local authorities, will demonstrate very visually capabilities and reliable support from Rotary as global organization.
- Two Rotary clubs (RC Ivano-Frankivsk and RC Kyiv-City) are among initiators and implementation team , and will ensure control within the project.
- All collected funds assign to reliable local producer of modular houses, creating additional working places.
- The initiators encourage Districts from international community to apply for a grant of \$ 25'000 USD from the RI Disaster Response Fund (DRF) in order to participate in this 'Moshchun recovery project' in Ukraine.
- **UA Dream** is the local Charity fund, major partner focused on this project, which is also raising funds to restore the residential real-estate in Moshchun .

GOAL

It is planned that the project of Restoration of Moshchun village will be implemented in two stages:

- Stage One: Installation of modular housing as a means of temporary "relief" residence.
- Stage Two: In partnership with various donor organizations and leading real-estate developers and architects, design and rebuild residential infrastructure + social infrastructure in the area. This is the long-term solution and through beautiful, sophisticated design and craftsmanship, we hope to make the area a symbol of our future, where we not only rebuild, but we rebuild better than ever before.
- We dream that Moshchun people will start to call it "Rotary village in Ukraine".

MOSHCHUN PROJECT
Modular houses for those
who lost their homes

2000 buildings were destroyed out of 2789

Source: <https://rebuildua.net/moshchun>

CURRENT STATUS

- 3 Modular houses have already been installed on the place, 5 are in production.
- Modular house tech: ready-made module, to resemble a 20-foot shipping container. Its structure is entirely built out of wood and fully assembled in the factory.
- Every modular house will have a plaque with the reference to Rotary district, which supported funding for this house.
- Modular house is given for free of charge usage until the restoration of permanent housing.
- Cost of one modular house with its installation, some appliances and furniture (fridge, heater, bed, table, etc) – \$ 12'500 USD.
