

Rotary. Children. Future.

Recovery and educational camp for children in the Carpathians. The war in Ukraine has made an impact on the fates of a large number of children. Lots of them became mentally traumatized due to explosions, staying in bomb shelters, and seeing death.

Rotary club Rakhiv - the center of Europe aims to organize recreation and psychological recovery for children who are from the regions of Ukraine where hostilities are taking place.

We want to provide an opportunity for children to stay safe, feel calm and be in a friendly atmosphere in the safest place in western Ukraine. The place of the event is situated in the heart of the Carpathians, at the altitude of 1400 meters, in the Dragobrat tract. Accommodation is in a hotel with meals.

The camp program includes:

- hiking tours to the mountains and lakes of the Carpathian massifs;
- workshops and activities for familization with Ukrainian ethno-culture, local traditions, and customs;
- sports, entertaining games, and quests;
- English lessons and speaking clubs.

Qualified specialists will work with children.

This project will provide children with the opportunities to shift focus from the faced horrors of war, make new acquaintances, and expand their personal worldview.

The Rotary Club of Rakhiv - the center of Europe intends to organize such camps on a permanent basis. The cost per day is \$45 per person. The price includes accommodation, food, transfer, excursions, educational program, animation support, and assistance of qualified specialists.

We hope for support from Ukrainian clubs and foreign partners.

Children are our future!
