Smoke kills more
people than AIDS
and malaria...
combined

A young child with dark hair and eyes, wearing a bright red hooded sweatshirt with white stripes on the sleeves and blue jeans, is sitting on a metal tray. The child is looking towards the camera with a slight smile. To the right of the child is a large, blue-painted metal stove, likely an eco-cocina. The stove has a large pot on top and a fire burning in the hearth below. The background is a rough, textured wall, possibly made of mud or plaster. The overall scene is indoors, likely in a rural or developing area.
