

Career Coaches Suzy and Danielle

Program Goals:

1. Increase Academic Skills in reading and math literacy
2. Earn a certification which includes: HS Diploma or any occupational skills course that we offer.
3. Place youth in a permanent job or enroll them in higher education.

We offer an individualized plan for each client based on their needs and background. Through an academic assessment and initial interview we can determine eligibility and the best action plan for each participant.

HIGHLIGHTS: Paid internships are available to motivated youth. We have community partners who are excited about sharing their passions and experiences. We can subsidize employment for several weeks to help the youth gain work experience and build their resume while getting paid!

Who We Are

About Us

We strive to help the youth in our community become independent and self-sufficient. Please contact us if you know any youth who may benefit from our services.
