

T-shirts reward giving; senior greetings offered

Generosity with meals continues to run strong

By Madelon Hynes
Las Vegas Review-Journal

Amid the COVID-19 pandemic, individuals, families and businesses in Las Vegas are stepping up to offer relief to people in need of food, services and support. Here are stories about people who are leading with kindness and proving that the community is #VegasStrong. Offers are valid at the time of posting and may change.

T-shirt drive

Michele Morgan-Devore has begun a T-shirt drive to help those in need. The Dinosaurs and Roses executive director, who had to close her nonprofit thrift store after the governor's order shut down nonessential businesses, is making T-shirts to raise money to buy food gift cards. To purchase a T-shirt, make a referral or help sponsor the drive, email info@dinosaur-sandroses.org or call 702-277-3752.

Help for at-risk teens, seniors

The Summerlin Rotary Club recently presented \$2,000 to nonprofits the Nevada Partnership for Homeless Youth and Catholic Charities of Southern Nevada's Meals on Wheels. The club's 66 members chose the groups to receive the donations through the club's community resource fund. "We selected them because they offer valuable and necessary services for Las Vegas' at-risk populations. This is especially crucial now because of the COVID-19 lockdown," said Glenn Ritt, the club president.

MGM Resorts to donate meals

Catholic Charities of Southern Nevada will soon receive 1,000 cooked meals a day from MGM Resorts International.

#VEGASSTRONG

Chefs from the company's resorts will prepare and donate meals to the nonprofit starting Tuesday. The effort will continue through April 30. To date, the company has donated more than 363,000 pounds of food locally to those in need. **Health plan, nonprofit link up** Teachers Health Trust has partnered with the Serving Our Kids Foundation to assist in getting week-end food bags to students during the pandemic. The health plan for educators and licensed professionals in Clark County and the nonprofit are delivering meal bags to students in kindergarten through eighth grade. More than 200 children in need have received bags dropped off through contactless delivery by Alto Pharmacy, Teachers Health Trust's preferred pharmacy partner.

Program for seniors

People can send messages of love and support to senior citizens through The District's new Show You Care program. With visitation at many care facilities being eliminated to protect residents from COVID-19, the shopping center will collect video messages to be delivered to local nursing homes and other care facilities. The messages will then be played continuously at the facilities so that seniors will be able to see and hear them. As a thank you to participants, The District will randomly select three videos and distribute gift cards to be used when the center reopens. NASA Nutrient Delivers 5,000 Times More Energy Than CoQ10

It's a game changer for this Medical Doctor. His patients report, "I'm 70 but feel 40 again"... and "My endurance has almost doubled."

BREAKING NEWS: Millions of Americans take the supplement CoQ10. It's the "jet fuel" that supercharges your cells' power generators, known as mitochondria. As you age, your mitochondria begin to die. In fact, by age 67, you lose 80% of the mitochondria you had at age 25. But if you're taking CoQ10, there's something important you should know. As powerful as CoQ10 is, there is a critical thing it fails to do. It can't create new mitochondria in your cells.

Taking CoQ10 is not enough

"There's a little-known NASA nutrient that multiplies the number of new power generators in your cells by up to 55%," says Dr. Al Sears, owner of the Sears Institute for Anti-Aging Medicine in Royal Palm Beach, Florida. "Science once thought this was impossible. But now you can make your heart, brain and body young again."

"I tell my patients the most important thing I can do is increase their 'health span.' This is the length of time you can live free of disease and with all your youthful abilities and faculties intact."

Medical first: Multiply the "power generators" in your cells

Al Sears, M.D., recently released an energy-boosting supplement based on this NASA nutrient that has become so popular, he's having trouble keeping it in stock.

Dr. Sears is the author of over 500 scientific papers on anti-aging and recently spoke at the WPBF 25 Health & Wellness Festival featuring Dr. Oz and special guest Suzanne Somers. Thousands of people listened to Dr. Sears speak on his anti-aging breakthroughs and attended his book signing at the event.

Now, Dr. Sears has come up with what his peers consider his greatest contribution to anti-aging medicine yet — a newly discovered nutrient that multiplies the number of tiny, energy-producing "engines" located inside the body's cells, shattering the limitations of traditional CoQ10 supplements.

Why mitochondria matter

A single cell in your body can contain between 200 to 2,000 mitochondria, with the largest number found in the most metabolically active cells, like those in your brain, heart and skeletal muscles.

But because of changes in cells, stress and poor diet, most people's power generators begin to malfunction and die off as they age. In fact, the Mitochondria Research Society reports 50 million U.S. adults are suffering from health problems because of mitochondrial dysfunction.

Common ailments often associated with aging — such as memory problems, heart issues, blood sugar concerns and vision and hearing difficulties — can all be connected to a decrease in mitochondria.

Birth of new mitochondria

Dr. Sears and his researchers combined the most powerful form of CoQ10 available — called ubiquinol — with a unique, newly discovered natural compound called PQQ that has the remarkable ability to grow new mitochondria. Together, the two powerhouses are now available in a supplement called Ultra Accel II.

Discovered by a NASA probe in space dust, PQQ (Pyrroloquinoline quinone) stimulates something called "mitochondrial biogenesis" — a unique process that actually boosts the number of healthy mitochondria in your cells.

In a study published in the Journal of Nutrition Biochemical Pharmacology, mice fed PQQ grew a staggering number of new mitochondria, showing an increase of more than 55% in just eight weeks.

NASA-discovered nutrient is stunning the medical world by activating more youthful energy, vitality and health than CoQ10.

The mice with the strongest mitochondria showed no signs of aging — even when they were the equivalent of 80 years old.

Science stands behind the power of PQQ

Journal of Nutrition Biochemical Pharmacology reports that PQQ is up to 5,000 times more efficient in sustaining energy production than common antioxidants.

"Imagine 5,000 times more efficient energy," says Dr. Sears. "PQQ has been a game changer for my patients."

"With the PQQ in Ultra Accel, I have energy I never thought possible," says Colleen R., one of Dr. Sears' patients. "I am in my 70s but feel 40 again. I think clearer, move with real energy and sleep like a baby."

It works right away

Along with an abundance of newfound energy, users also report a sharper, more focused mind and memory, and even younger-looking skin and hair. Jerry M. from Wellington, Florida, used Ultra Accel and was amazed at the effect.

"I noticed a difference within a few days," says Jerry. "My endurance almost doubled. But it's not just in your body. You can feel it mentally, too," says Jerry. "Not only do I feel a difference, but the way it protects my cells is great insurance against a health disaster as I get older."

Increase your health span today

The demand for this supplement is so high, Dr. Sears is having trouble keeping it in stock. "My patients tell me they feel better than they have in years. This is ideal for people who are feeling or looking older than their age... or for those who are tired or growing more forgetful."

"My favorite part of practicing anti-aging medicine is watching my patients get the joy back in their lives. Ultra Accel sends a wake-up call to every cell in their bodies... and they actually feel young again."

Where to find Ultra Accel II

Right now, the only way to get this potent combination of PQQ and super-powered CoQ10 is with Dr. Sears' breakthrough Ultra Accel II formula.

To secure bottles of this hot, new supplement, buyers should contact the Sears Health Hotline at 1-800-990-0788 within the next 48 hours. "It takes time to get bottles shipped out to drug stores," said Dr. Sears. "The Hotline allows us to ship the product directly to the customer."

Dr. Sears feels so strongly about this product, he offers a 100%, money-back guarantee on every order. "Just send me back the bottle and any unused product within 90 days, and I'll send you your money back," said Dr. Sears.

The Hotline will be taking orders for the next 48 hours. After that, the phone number will be shut down to allow them to restock.

Call 1-800-990-0788 to secure your limited supply of Ultra Accel II. You don't need a prescription, and those who call in the first 24 hours qualify for a significant discount. **To take advantage of this great offer use Promo Code NP0420UA48 when you call in.**
