

Jim Simpson 2023-2024

Hi everyone, my name is Jim Simpson and I have the honor and duty to be the president of a great group of people that make up the Crestwood/Sunset Hills Rotary Club in St. Louis County. In this world of endless problems, it is wonderful to have a mission to try and make things better. That is what Rotary is all about. Both globally and locally we reach out with our resources and talent to make a difference. Like our mission to end polio throughout the world is very close to being a reality. Or locally our Feed the Knowledge Program to feed children who have food at schools during the week but need food over the weekend. We pack 1200 sacks of food every six weeks and deliver them to local schools.

We also raise money to give away to local non-profits so that they can be more effective in their missions. Our biannual Craft Fair at Lindbergh High School is our main source of revenue and a very cool event with hundreds of craft booths. It takes a lot of teamwork to complete our missions but the reward of working together is priceless.

This is my 31st year of being a Rotarian and the friendships and comradery over these years will be with me forever. New memories are being made all the time and I look forward to making new friends and making the world a better place as we move forward. If this sounds like a place you would like to be and help others while meeting new people, then contact us via the website information www.cshrotary.org and you will be on your way to a new experience you will treasure!

Take care and stay safe,

Jim

Jim Simpson
President, Crestwood – Sunset Hills Rotary Club
