Hello Ed,

Please join us on Tuesday, August 25th for our DACdb University "Club Visibility in Real and Virtual Times". Since April, we conducted weekly training workshops that focused on a different feature within DACdb each time. This week we thought we would tie these separate parts together. We know many of you are working hard to keep your club visible in this virtual meeting world. We'll walk through finding presenters, promoting those programs, empowering/delegating tasks to others, using DACdb tools along the way.

We will touch on some of our premium modules in the process while keeping things as broad as possible. Open to all users.

This session will be 20 minutes of training with a 10 minute question and answer period after.

Please keep your confirmation email. You will need the link to login to the training.
