To Whom It May Concern,

It is a great pleasure to recommend Xavier Carter. He is one of the most exceptional students I have encountered in my 24 years of teaching. I taught Xavier in my Macro Economics, Micro Economics, Digital Electronics and Advanced Multimedia classes over the course of the last three years. I am not surprised to find out he has a 4.812 grade point average and is ranked first in his class. He has a keen interest in and talent for subjects involving technology and problem solving.

Xavier is a perceptive, sharp, quick individual with a high aptitude for leadership and problem solving. He is driven to understand how things work, whether they be a complex academic problem or organizing a project for class. He has been a strong leader in high school, eager to share his knowledge with others and learn new skills.

Xavier's personal strengths are as impressive as his intellectual accomplishments. He's an active presence in class with a great sense of humor. Xavier not only excels academically, but is involved in several school activities including National Honor Society, Mu Alpha Theta, and FIRST Robotics. Xavier is also active in sports playing varsity tennis, where he served as team captain and was selected to second team All-Conference. He is the perfect person to get a group project rolling, but he also knows how to sit back and let others take the lead.

His cheerful nature and openness to feedback means he's always learning and growing, an impressive strength that will continue to serve him well in college and beyond. Xavier is just the kind of driven, engaging, and curious student that helped make my classroom a lively environment and safe place to take intellectual risks.

Xavier has my highest recommendation for consideration of your scholarship. He has demonstrated excellence in all that he puts his mind to, whether it's preparing for the robotics competition or tutoring for math. Xavier's endless curiosity, combined with his willingness to take risks, leads me to believe there will be no limit to his growth and achievements in college and beyond. Please don't hesitate to contact me at [bbergin@altonschools.org](mailto:bbergin@altonschools.org) if you have any questions.

Sincerely,

Brian Bergin  
CTE Division Chair
