For 11 years the Rotary Club of Carbondale-Breakfast has provided a Student's Dictionary to every third-grade student in the CCHS feeder elementary schools. The project costs around \$800 each year. It's part of a nationwide effort via dictionaryproject.org. The joy that the students show our members when they visit classrooms and distribute the dictionaries is a highlight of our service activities. Dictionaries will be distributed whether classes meet in person or virtually.

Meals will be cold with reheating instructions.
