

Disaster Committee Minutes 06/08/2026

On Call: Joe Miller, Jill Pietrusinski, Bruce Matthews, Jill Pietrusinski, Aur Beck, Wayne Gerlock, Robin Dean, Debbie Miller, Jeff Thornton, David Antelo, Mark Bearth

Joe opened the meeting at 7:28

David Antelo noted there is a unit in MO that he will be bringing to us. He has a video of the suitcase filtration system option. We will have access to a unit prior to training. David will send the video out and the video was done by Rubicon. All repairs to the system are complete and there is a wiring need to be adjusted to the new AV lamp. Joe will work with David on scheduling a new training date.

Joe noted the change of venue and reported on the planned exercise at the Jackson Co Health Dept in Murphysboro on June 9. Arrive by noon for briefing in the parking lot and we have access to the room at 1300. The intention is to serve in the roles we did with the functional exercise on May 2. Jeff will step into the role Aur filled. Other Volunteers will be partnered and assigned to ideally have dual volunteers per role. Ideally each station will have 2 people plus a spare. At the briefing allow those who were not part of the functional exercise to choose their role. The volunteers may not be prepared as they have not all attended the training.

Jill reported on the registrants and Wayne noted 2 who were from Carterville had to cancel so Jill adjusted their registration in DAC.

Wayne will bring the job descriptions as well as the forms for the stations. The trailer will be on site and have all of the materials needed. Jill will bring her "go box" to be updated for future use. Jill will email the prepared full-scale plan provided by Brian to those registered.

Mark and Jeff will carpool. The exercise is supposed to end at 4p then there is an after-action meeting. We have not received the survey results from the functional exercise.

Jill will have an app to capture leads of those non-members who may be interested in learning more about Rotary.

Next Call July 14 at 7:30 pm

Respectfully
PDG Jill Pietrusinski
